# Create your own custom distro images from Distroshare

By *Roy Schestowitz*

Created *03/08/2014 - 10:51pm*

Submitted by Roy Schestowitz on Sunday 3rd of August 2014 10:51:48 PM Filed under [GNU](#) [1] [Linux](#) [2]

Newbies are often deterred from trying out Linux (or other open source operating systems) because of the amount of time and effort they may need to spend in customizing the OS to work on their hardware after a fresh installation. The same goes for old users planning to switch hardware. It is often difficult to figure out if a new model will work in harmony with Linux. Distroshare is trying to solve this problem.
