BLD-3.16 release

By *Rianne Schestowitz*

Created 07/08/2014 - 9:03pm

Submitted by Rianne Schestowitz on Thursday 7th of August 2014 09:03:09 PM Filed under [Linux](#) [1]

It's been quite a long time since the announcement of the Barbershop Load Distribution (BLD) Algorithm. Quite a few changes have been made, since then. Now it more reflects what it really should be 😊. It's a simplistic approach towards load balancing, typical x86 SMP boxes should run okay (tested personally), but, yes it can break your boxes too. I'm looking forward to get some feedback, to keep further development up and going.
