Jahia was incepted in 2002 in Switzerland ? the name comes from the contraction of Java (our core language) and Bahia (which means ?bay? in Brazil). To support the international growth of the project, Jahia Solutions Group was later formed (in 2005) with offices throughout Europe and Jahia Inc. (the US subsidiary) was created in 2008. Jahia has now offices in Geneva, Paris, Toronto, Chicago, Washington, DC, Dusseldorf and Klagenfurt ? and outsourced support centers in Australia and Nicaragua.
