OpenELEC launched a version of a WeTek media player preloaded with Kodi-ready OpenELEC Linux, and a choice of DVB-S2, DVB-C/T/T2, or ATSC broadcast tuners.

The WeTek OpenELEC (Limited Edition) Linux media player is an OpenELEC-optimized version of the Android-based WeTek Play media player, which typically offers OpenELEC Linux as one of its alternative downloads. The \$90.33 (99-Euro) OpenELEC version comes with a choice of satellite (DVB-S2), cable (DVB-C/T/T2), or terrestrial broadcast (ATSC) tuners.
