Time to saddle up the rant stallion and take him out of the stable: This comes up from time to time on social media ? as it did again several days ago ? and it?s really about time it stops.

Dennis Ritchie and Steve Jobs died pretty close to each other, time-wise. That may sound like the start of a joke ? ?Dennis Ritchie and Steve Jobs meet at the pearly gates, and?? ? but we?re not going there today. Many people are under the impression that while Steve Jobs got all the attention as the ?messiah of computing? when he died, Dennis Ritchie was completely ignored.
