Submitted by Rianne Schestowitz on Wednesday 2nd of December 2015 10:54:14 AM Filed under [Linux](#) [1] [Microsoft](#) [2] [Debian](#) [3]

While many Linux users are vocal Microsoft detractors, the truth is, the company is a proponent of the kernel. Yes, in years past, the Windows-maker seemingly looked at Linux with disdain, but times are changing, folks. The company is hiring open source professionals, and even developing apps for the world's most popular Linux distro, Android. Not to mention, Azure has long supported a handful of Linux distributions.
