- [Creator Ci40 dev kit puts the IoT in a box for £80](#) [2]

The package includes three sensors, two battery-powered wireless boards, and a powerful IoT hub, providing the hardware components required to quickly prototype IoT wireless devices. In addition, every kit includes a free subscription to FlowCloud, a robust cloud platform for connecting embedded devices to the Internet.

- [Apple's Swift 2.0, Raspberry Pi Zero vs. C.H.L.P., and more news](#) [3]

- [MediaTek LinkIt Smart 7688 Has Been Released In Two Versions](#) [4]

- [The Mini PC with Two Lives](#) [5]

I am a fan of the small computers, and personally love a combination of Raspberry Pi's and android boxes. Different computers for different tasks.
