Google's brand new flagship Nexus 6P smartphone has only been in the hands of owners for a little over a month, but it's already getting a quick software update. Below is everything owners need to know about the Android 6.0.1 Marshmallow update. From installing it right now, how it's performing, what's new and more.

On October 5th Google finally released Android 6.0 Marshmallow to the public, and for manufacturers. Along with it was the Nexus 5X, and the impressive new Nexus 6P smartphones. Now less than two month later Android 6.0.1 Marshmallow is arriving for owners.
