THE INTERVIEW

In what ways do you make a contribution to KDE?

I'm a developer of Kopete. I work on the Kopete core, and on some plugins. I was the MSN plugin maintainer, but now I'm more focused on Jabber.

I'm developing a next generation of KNotify for KDE 4.

And I do a little work or bugfixes on various others part of KDE when required, specially in kdelibs.

I have also helped to set up kdetalk.net, the server Jabber for KDE.

When did you first hear of KDE?
