Canonical and its Linux-based Ubuntu OS have recently received some attention via the announcement of the rather intriguing bq Aquaris M10 tablet. And it seems that the open source company isn't immune to the call of MWC 2016. Just in time for the start of the mobile madness, Ubuntu reveals that two community efforts have brought the "converged" mobile experience to rather older smartphones, the Sony Xperia Z1 and OnePlus One. Unofficially, however, there might be even more in the works that could be revealed at MWC this week.
