# Debian 9 Delay, Linux PTSD, and Shells

By *Roy Schestowitz*

Created *04/03/2016 - 9:49am*

Submitted by Roy Schestowitz on Friday 4th of March 2016 09:49:13 AM Filed under [-s](#) [1]

The top story of this slightly slow new day was the announcement from Jonathan Wiltshire, Debian release assistant, stating Debian 9 would be delayed two months. Steven Ovadia dug up an interesting blog post from someone claiming to suffer from Linux Desktop PTSD and KDE announced a new community outreach program. Jason Baker posted a round-up and poll of the top five Linux shells and why do distros look so darn insecure?
